the population question according pdf

In demographics, the world population is the total number of humans currently living, and was estimated to have reached 7.7 billion people as of November 2018. It took over 200,000 years of human history for the world's population to reach 1 billion; and only 200 years more to reach 7 billion.. World population has experienced continuous growth since the end of the Great Famine of 1315â€“17 ...

A civilian is "a person who is not a member of the military or of a police or firefighting force". The term "civilian" is slightly different from a non-combatant under the law of war, as some non-combatants are not civilians (for example, military chaplains attached to the belligerent armed forces or neutral military personnel). Under international law, civilians in the territories of a party ...
