

### **the psychology of self pdf**

The psychology of self is the study of either the cognitive, conative or affective representation of one's identity or the subject of experience. The earliest formulation of the self in modern psychology derived from the distinction between the self as I, the subjective knower, and the self as Me, the object that is known.. Current views of the self in psychology position the self as playing ...

Self-Determination Theory (SDT) is a theory of motivation.. It is concerned with supporting our natural or intrinsic tendencies to behave in effective and healthy ways. SDT has been researched and practiced by a network of researchers around the world.. The theory was initially developed by Edward L. Deci and Richard M. Ryan, and has been elaborated and refined by scholars from many countries.
