Various aspects of the relationship between religion and science have been cited by modern historians of science and religion, philosophers, theologians, scientists, and others from various geographical regions and cultures. Even though the ancient and medieval worlds did not have conceptions resembling the modern understandings of "science" and "religion", certain elements of these modern ...

Relationship between religion and science - Wikipedia

Creationism is the religious belief that the universe and life originated "from specific acts of divine creation", as opposed to the scientific conclusion that they came about through natural processes. Creationism covers a spectrum of views including evolutionary creationism, a theological variant of theistic evolution which asserts that both evolutionary science and a belief in creation are ...
