the social enterprise sourcebook pdf

This typology breaks down the traditional boundaries between the nonprofit and private sectors and draws definition to this new institutional animal--part business-part social--the social enterprise. In doing so, the typology explores how institutions have combined a mix of social values and goals with commercial business practices and how they have come up with ownership models, income and ...

A society is a group of individuals involved in persistent social interaction, or a large social group sharing the same geographical or social territory, typically subject to the same political authority and dominant cultural expectations. Societies are characterized by patterns of relationships (social relations) between individuals who share a distinctive culture and institutions; a given ...

Abstract. The sheer impact of the recent global financial turmoil and scandals (such as Enron and WorldCom) has demonstrated that unbridled commercial entrepreneurs who are allowed to pursue their short-term opportunities regardless of the consequences has led to a massive depreciation of the wealth of nations, social livelihood and environmental degradation.

TRANSPORT STRATEGY TO IMPROVE ACCESSIBILITY IN DEVELOPING

Enabling environments for climate-smart agriculture (CSA) are the framework conditions that facilitate and support the adoption of climate-smart technologies and practices. They include policies, institutional arrangements, stakeholder involvement and gender considerations, infrastructure, insurance schemes, as well as access to weather information and advisory services.

Sociotechnical systems (STS) in organizational development is an approach to complex organizational work design that recognizes the interaction between people and technology in workplaces. The term also refers to the interaction between society's complex infrastructures and human behaviour. In this sense, society itself, and most of its substructures, are complex sociotechnical systems.
