The video assistant referee (VAR) is a football assistant referee who reviews decisions made by the head referee with the use of video footage and a headset for communication. In 2018, VARs were written into the Laws of the Game by the International Football Association Board (IFAB) following trials in a number of major competitions.

The Nios II Software Developer’s Handbook assumes you have a basic familiarity with embedded processor concepts. You do not need to be familiar with any specific Intel FPGA technology or with Intel FPGA development tools. Familiarity with Intel FPGA hardware development tools can give you a deeper understanding of the reasoning behind the Nios II software development environment.

Box and Cox (1964) developed the transformation. Estimation of any Box-Cox parameters is by maximum likelihood. Box and Cox (1964) offered an example in which the data had the form of survival times but the underlying biological structure was of hazard rates, and the transformation identified this.

The 2018 FIFA World Cup was the 21st FIFA World Cup, an international football tournament contested by the men's national teams of the member associations of FIFA once every four years. It took place in Russia from 14 June to 15 July 2018. It was the first World Cup to be held in Eastern Europe, and the 11th time that it had been held in Europe. At an estimated cost of over \$14.2 billion, it ...

Standard: The latest official version of SQL is SQL:2008. I don't have access to the official ISO standard text, but Whitemarsh Information Systems Corporation provides a rather final draft as a zip-archive, containing several files. Most important to this page is the file 5CD2-02-Foundation-2006-01.pdf.. No books cover SQL:2008 yet.

Comparison of different SQL implementations

Programming in Delphi Introduction. The Delphi language was formerly known as Object Pascal, and is an object-oriented version of the venerable Pascal language, combined by Borland with a Visual Basic-like RAD tool that lets you write fast GUI applications with no run-time, a very rich set of components (VCLs) that can be statically compiled into the EXE, and an encapsulation of most of the ...
